---

PROFILE

Software Engineering student and aspiring Frontend AI Engineer with hands-on experience building responsive web applications and AI-powered products. Skilled in React, Next.js, JavaScript, TypeScript, Tailwind CSS, Node.js, and modern AI-assisted development workflows. Experienced in developing full-stack applications, integrating APIs, building AI-powered interfaces, and deploying projects to the web. Interested in building practical products that combine strong frontend engineering with AI capabilities.

HIGHLIGHTED SKILLS

Web Development: HTML5, CSS, JavaScript, React, ASP.NET Core/.NET Framework, C#

AI Automation: AI Agent Development (n8n + Custom Code), Groq API / LLM Integration, Serverless Functions (Vercel), Automated Content Workflows

Backend: Node.js, Express.js, MongoDB (MERN Stack)

Programming Languages: C++, Java

Databases: MySQL, SQL Server

Documentation & Design: Requirement Elicitation, SRS Documentation, UML Modeling

Tools & Integration: n8n (Automation), Git/GitHub, Visual Studio, Android Studio, Cursor, Vercel

Languages: English, Urdu

Experience

Full Stack & AI Automation Intern | RISEUP@work | September 2026 - Present

- Building frontend and full-stack features for the RISEUP@work product.
- Working on AI automation, including a content engine to automate content workflows.

AI Automation Intern | Dafi Labs | July 2026 - August 2026

- Built an AI agent using n8n combined with custom code to automate social media content generation.
- Built an AI-powered e-commerce competitor tracker as my final internship project.

Frontend AI Intern | FlyRank AI | July 2026 - August 2026

- Contributed to frontend and AI-integrated features as part of the internship track.
- Ran Lighthouse audits and performance updates to improve site speed and Core Web Vitals.

FullStack Developer Intern | ScaleUp Brands | July 2026

- Built full-stack features (React 18 + TypeScript, Node.js + Express 5) for a UK-based brand
- Designed data models with Prisma + Supabase Postgres; used BullMQ + Redis for job queues
- Integrated Supabase Realtime for live UI updates; shipped code to GitHub in sprint-based workflow

Frontend Developer Intern | DecodeLabs | May 2026

- Worked on responsive website design so layouts work across all devices and screen sizes.

Projects

InboxPilot AI | GitHub

- Built a React application with an AI-powered chat/inbox feature, using a Vercel serverless function to securely proxy calls to the Groq API (llama-3.3-70b-versatile), avoiding CORS issues and exposed keys.
- Built solo during 5 day ai agentic vibe coding competition by Google and Kaggle

Habit Builder Tracker | GitHub

- Built a cross-platform habit-tracking app to help users build and maintain daily habits.

LinkedIn Trend & Auto-Posting AI Agent | GitHub | Live

- Built an AI-powered LinkedIn automation workflow using n8n, Gemini, and LinkedIn API.
- Automated trend discovery, post generation, approval, and publishing.
- Integrated OAuth 2.0 and scheduled workflows for seamless content management.

Ecommerce Competitor Tracker | GitHub | Live

- Built an **AI-powered e-commerce competitor tracker** to monitor competitor products, prices, and customer reviews.
- Automated **daily/weekly data capture** and price/product change tracking.
- Used AI to analyze **customer feedback, likes/dislikes, and market gaps** to identify potential product opportunities.
- Designed a dashboard for **competitor monitoring and actionable market insights**.

Achievements

1. **1st Runner-Up - IdeaRise Startup Challenge 2026 | ChemMentoria STEM Platform**

   Pitched my ReqAmbiguityAI idea, selected among Top 5 Finalist Ideas and got 2nd position

2. **Merit-Based Scholarship | University of Gujrat**

   Awarded merit-based scholarship in 2nd, 3rd and 4th semester.

3. **PEEF Scholarship | Matriculation**

   Awarded Punjab Educational Endowment Fund (PEEF) scholarship in 10th class.

4. **PM Youth Laptop Scheme**

   Awarded a laptop under the Prime Minister's Youth Laptop Scheme.

5. **District Topper | Matriculation Examination**

   Achieved **1100/1100 marks**, securing the highest score in the district.

EDUCATION **Bachelor in Software Engineering (2023-2027) | Ongoing**

University of Gujrat, Pakistan

CGPA: 3.78/4.0 (6 semester done)
